DETAILED ACTION

Claims 7-48 are currently pending and are present for examination.

Applicants' amendments and arguments filed on 11-21-03, have been fully considered and are deemed to be persuasive to overcome the rejections previously applied. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. Specifically Examiner has withdrawn the rejection under 35 U.S.C. 112, 1st paragraph in view of the claim amendments and supporting arguments provided by the applicant.

Terminal Disclaimer

The terminal disclaimer filed on 11-21-04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US 6,376,227 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Drawings

Drawings submitted in this application are accepted by the Examiner for examination purposes only.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Art Unit: 1652

Authorization for this examiner's amendment was given in a telephone interview with Mr. Vincent Shier on 2-17-04.

The application has been amended as follows:

- A) Cancel claims 9-22, 29-42 without any prejudice.

Allowable Subject Matter

Claims 7-8, 23-28, 43-48 are allowed.

The following is an examiner's statement of reasons for allowance: Following a diligent search it was determined that the prior art neither teaches nor suggests an alkaline protease having an amino acid sequence SEQ ID NO:1 or 2 or such amino acid sequences that are at least 90% identical to SEQ ID NO:1 or 2. Examiner has withdrawn his previous rejection that claims are not enabled in view of the recent claim amendments and the support in the specification regarding the amino acid positions that can be changed without affecting the protease activity thus eliminating the need for any undue experimentation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
